## About Milestone Microwave Sample Preparation

**ultrawave milestone - microwave sample prep and mercury ...** - milestone has been active for over 25 years in the field of microwave sample preparation. with more than twenty thousand instruments installed worldwide, covering large and small research institutions, **milestone systems xprotect® video ... - southwest microwave** - milestone systems has developed the milestone southwest microwave intrepid™ series ii perimeter module plugin, which provides a direct connection between milestone's xprotect® video management system and southwest microwave's intrepid™ series ii perimeter **milestone ethos up - microwave sample prep and mercury ...** - the user to open the ethos up door during the microwave run. at the end of the run, the door remains locked until the solutions have cooled down to a user preset temperature. milestone safeview • the ethos up integrates the milestone safeview, a high definition digital camera interfaced with the instrument terminal. **microwave hybrid tissue processor** - milestone s.r.l. mm082-002 - logos - operation manual page 3 of 112 thank you for having selected our system and welcome to the ever growing world club of users for milestone laboratory instrumentation. we are sure that you will be completely satisfied with this new tool entering your laboratory. **xprotect® perimeter module for southwest microwave intrepid** - perimeter module for southwest microwave intrepid (smintrepid) plug-in to get status and alarm indication from the smintrepid system into the milestone surveillance system. the document only covers the necessary configuration steps in the milestone xprotect surveillance system software and not how to configure the smintrepid system itself. **microwave extraction system - ats scientific** - milestone's ethos ex is the gold standard in the field of sample extraction. it offers superior process control and reproducibility, superior flexibility for different applications, superior safety and durability, and a superior user experience. milestone's ethos ex microwave extraction system user interface the ethos ex is operated via a color **performance characteristics of the milestone ultrawave** - summary milestone's ultrawave microwave digesti on system features single reac- ti on chamber (src) technology, giving it higher performance and greater producti vity than conventi onal closed vessel microwave digesti on. unlike conventi onal systems which use individual, pressurized vessels for each sam- ple, the ultrawave features a large pressurized reacti on chamber in which **microwave sample preparation for aa and icp - iq usp** - milestone srl 30 effect of sample amount • higher pressure conditions • more exothermic reactions • vessel and microwave system have to be capable of withstand or handle such over-pressurization • vessel design and materials are key factors for safe microwave digestions **ethos ez - ats scientific** - ethos ez, the right choice in microwave sample preparation the ethos ez fully embodies milestone's philosophy in microwave sample preparation. specifically designed for closed vessel acid digestion, it offers an integrated approach to microwave sample preparation, with full control of all reaction parameters. the ethos ez is built **milestone - fkv srl** - it is the truly next generation microwave digestion system. the patented milestone ultraclave achieves extraordinary performance capabilities by combining direct microwave heating in a high pressure reactor, which acts simultaneously as microwave cavity and vessel. microwave energy is introduced into the reactor through a unique microwave port. **flexiwave milestone - novolab** - milestone flexiwave it is a common misconception that a laboratory microwave is just a microwave and that there are very few differences between systems. we have incorporated in the new flexiwave our vision of the future, our passion, and our knowledge, with the ultimate goal of helping chemists. the new milestone flexiwave overcomes the
